surya-prakash-s-cse | suryaprakash-s-2005 | LeetCode | HackerRank | GFG

Career Objective

Computer Science and Engineering student with a strong foundation in Data Structures and Algorithms and hands-on experience building full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Passionate about software development, problem-solving, and delivering scalable, efficient solutions.

Education

Velammal College of Engineering and Technology **2023 – 2027**
B.E. in Computer Science and Engineering **CGPA: 8.67** (upto 6th Semester)

YWCA Matriculation Higher Secondary School **2021 – 2022**
Higher Secondary Education **92.67%**

Technical Skills

Languages: C, C++, Java, JavaScript, Python

Web & Frameworks: MongoDB, Express.js, React, Node.js, HTML, CSS, PHP, REST APIs

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Unity, Figma

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Experience

Game Design & Development Intern, MSME – Technology Development Centre **June 2025**

- Gained hands-on exposure to 3D game development in Unity Engine, including gameplay mechanics.

Front-End Development Intern, Cognifyz Technologies **Mar 2025 – Apr 2025**

- Gained practical exposure to front-end development fundamentals, including responsive UI design.

Projects

Watch-2-Gether – Real-Time Video Streaming Platform **Live Demo**

- Built a full-stack platform for synchronized video streaming in shared watch rooms using Socket.io for real-time state sync.
- Implemented JWT and Google OAuth authentication, live chat, and analytics; used Tailwind CSS for styling.
- **Tech Stack:** React, Node.js, Express.js, MongoDB, Socket.io, JWT, Google OAuth, Tailwind CSS.

PixelFeed – AI-Powered Social Media Platform **Live Demo**

- Developed a full-stack social platform integrating Cloudflare Worker AI to generate images from user prompts within posts.
- Built secure authentication, customizable profiles, and social features (likes, comments, feeds).
- **Tech Stack:** MongoDB, Express.js, React, Node.js, Cloudflare Worker AI.

Student Exam Score Predictor – End-to-End ML Regression System **Live Demo**

- Built a complete ML pipeline predicting student exam scores from 20+ academic/behavioral features.
- Trained and compared Linear Regression and Random Forest models with automatic best-model selection, deployed an interactive Streamlit app for real-time predictions with confidence intervals.
- **Tech Stack:** Python, scikit-learn, Pandas, Streamlit.

Achievements

- Solved 400+ algorithmic and data structure problems on LeetCode.
- Selected as part of a top-performing team in the Smart India Hackathon (SIH) 2025 internal college screening.
- Earned 6 skill badges on HackerRank for programming and problem-solving assessments.
- Achieved 96th rank on the GeeksforGeeks college coding leaderboard.

Certifications

- Fundamentals of Java Programming – Board Infinity (Coursera)
- Frontend for Java Full Stack Development – Board Infinity (Coursera)
- Introduction to Structured Query Language (SQL) – University of Michigan (Coursera)
